

HOW TO EARN CRAFTR FROM POS

REQUIRED

- *MyEtherWallet*
- *A wallet containing tokens and some ether*
- *(optional) Metamask connected*

PARAMETERS

Contract Address: [0xf19eac69f9566f0b40660bd0cc16234330f38456](#)

ABI / JSON Interface ([link](#) to raw text):

Select the POS function and access to your account

Gas Price: 4 Gwei

Really slow Maybe Fast

Gas Price is the amount you pay per unit of gas. $TX\ fee = gas\ price * gas\ limit$ & is paid to miners for including your TX in a block. Higher the gas price = faster transaction, but more expensive. Default is **41 GWEI**.

Read More

Lower gwei means lower fees but slower transactions. (suggested)

Higher gwei means higher fees but faster transactions.

Warning!

You are about to execute a function on contract.
It will be deployed on the following network: ETH (myetherapi.com).

Amount to Send *In most cases you should leave this as 0.*

0

Gas Limit 200000

2) Set gas limit to 200'000

Generate Transaction

3) Generate transaction data and confirm

Read / Write Contract
